

CERAMIC FORTIFIED WATERBORNE FINISHES  
WITH ACCELERATED NANOTECHNOLOGY.  
FROM ARBORITEC, THE LEADER IN  
WATERBORNE FINISHES.

# The best there is. From start to finish.

Introducing Arboritec's waterborne finishes  
fortified with ceramic silica.

Stronger durability. Superior adhesion. **No white lines.**  
Fewer solvents. Low VOCs. Improved air quality. Better flow and leveling.  
Faster dry times. Greater scratch resistance. Longer life.

 **ARBORITEC™**

If it's not Arboritec, it's not finished.

**FIRST COAT**  
Resilient, dries hard  
Penetrates deeper  
Very low VOCs: 80 g/l

**AVENUE**  
Exceptional durability  
Two component  
Commercial &  
Residential

**CLASSIC**  
High durability  
One component  
Incredible value  
Commercial &  
Residential

**SELECT**  
One component  
Economical  
Residential  
Low VOCs: 100 g/l

## Nanotechnology: It's the smallest things that make the biggest difference.

The science of working on the ultra-small, nano scale (1/100,000 the size of a human hair), nanotechnology uses atoms and molecules to create innovative new materials never before possible.

After 10 years of perfecting the use of nanotechnology in waterborne wood floor finishes, Arboritec, the market share leader in Sweden, has developed a remarkable new class of waterborne sealers and finishes that are revolutionizing the industry.

Fortified with ceramic silica, the ultra-small nanoparticles in Arboritec products go where conventional particles simply cannot. This allows for deeper penetration, enhanced adhesion, added strength and scratch resistance.

For your next job, start with the ultimate finish. From application and durability to enduring beauty, Arboritec

waterborne polyurethane floor finishing products are simply the best there is.

- Incredibly tough
- Superior Adhesion
- Exceptional flow and leveling
- Less solvents
- Low VOCs
- Non-offending odor
- Improved air quality
- Faster dry and cure times
- Greater scratch resistance
- NO WHITE LINES\*

\* No "white stretch" lines. Finish breaks evenly on board edges.

### Arboritec Avenue

Avenue is Arboritec's premier finishing product. It eliminates "white lines" and dries to a clear finish. As with all our products, low VOCs benefit the home owner, the professional installer and, the environment.

Arboritec Cross Reference Specification Chart

SPECIFICATION	Finish			Sealer
	AVENUE	CLASSIC	SELECT	FIRST COAT
Special Ingredient	Ceramic Silica	Ceramic Silica	Ceramic Silica	Ceramic Silica
